10/9	600/9
11/4	540/4

Coats Admiral FH Vero

THERMAL PROPERTIES

Burns readily. Decomposes at 400°C

Prolonged exposure to sunlight causes yellowing and strength loss

Good durability. Shrinkage at 100°C typically 1% or less

Sensitive to temperatures greater than 350°C

CHEMICAL PROPERTIES

Acids:	Sensitive to mineral acids especially if halogenated
Alkalis:	Swells in caustic mercerising but is not damaged
Organic solvents:	Generally unaffected by most organic solvents. Generally unaffected by sodium hypochlorite, sodium perborate and peroxide bleaches under controlled conditions. There is a probability of strength loss if contaminated with iron during bleaching
Insects / microorganisms (mildew, rot):	Resistant to ageing and moth attacks but sensitive to mildew growth
Moisture regain:	Approximately 8%
Finishing:	The lubricants applied are designed to give consistent performance at high sewing speeds and a minimal variability between shades
Bleaching:	Good resistance to chlorine
Abrasion resistance:	Low

EXPERT REAL WORLD SUPPORT

The final cost of any product also includes hidden costs, fuelled by the methods and tools applied to it. Our experts know exactly how to reduce those costs, save time and increase productivity.

One to One Visits

There's no need to come to us, our experts will travel to your site. In person, online or via the phone, our trained consultants deal with the kind of issues any busy factory may face, providing a solution for today and a blueprint for future efficiency.

Training and Presentations

From product selection to stitch formation, the use of colour to solutions for common production issues, we take the learning gathered through years of hands on experience and present it in the form of high impact seminars, workshops and presentations.

Innovation Hub

Collaborate directly with expert R&D technologists at our Innovation Hub to create pioneering and tailored solutions for products ranging from Performance Materials to Apparel and Footwear. Equipped with state-of-the-art technology, we quickly turn ideas into prototype designs ready for manufacturing.

To drive your hidden costs down, talk to Coats. From product audits in pre-production to the latest technical bulletins, we'll provide support that achieves measurable results.

For more information, talk to your Coats representative today or visit www.coats.com/admiral-fh-vero

OTHER PRODUCTS IN THE ADMIRAL RANGE

To complement the Admiral range, we also have a selection of specialist Admiral threads. Each of these combines the superior properties of the Admiral product with additional benefits specific to the end use.

Product Name	Description
Admiral	Long-staple soft cotton sewing thread with 100% natural fibre content ideal for mercerised cotton garments.
Admiral Teabag	Staple spun cotton used for tea bag string and is especially designed to perform on a wide range of tea bagging equipment.
Admiral FH	Strong and environmentally friendly tampon withdrawal cord that has been specially engineered to wick away moisture and withstand tension caused by pulling.

Special use Admiral products are typically available across a select range of ticket sizes and technical information will in some cases vary from the above table.
