CoatsKnit™ Eco H

CoatsKnit Eco H is created using a blend of hemp and lyocell. The hemp, which comes from the inner fibres of the plant stalk, is warm, breathable, moisture-wicking and anti-bacterial. It's also naturally hypoallergenic.

WHY CHOOSE COATSKNIT ECO H?

- Utilises the strength of natural sustainable fibres
- Hemp is a bast fibre — one of the most durable naturally-occurring fibres suited to textile production
- It is processed out of the stalk of the plant which belongs to the Bast fibre group
- It's part of Coats' ever-growing range of sustainable, eco-friendly products

MAIN USES:

- Footwear knitted uppers
- Apparel garments
- Accessory fabrics

CoatsKnit Eco H

CoatsKnit Eco H

EXPERT REAL WORLD SUPPORT

The final cost of any thread also includes hidden costs, fuelled by the methods and tools applied to it. Our experts know exactly how to reduce those costs, save time and increase productivity.

Seamworks

Install our Seamworks software to accurately calculate costs prior to production, putting an end to the risk of over or under ordering materials, and incurring unnecessary extra costs. The Seamworks tool is provided with installation, training and ongoing support included.

One to One Visits

There's no need to come to us, our experts will travel to your site. In person, online or via the phone, our trained consultants deal with the kind of issues any busy factory may face, providing a solution for today and a blueprint for future efficiency.

Training and Presentations

From thread selection to stitch formation, the use of colour to solutions for common production issues, we take the learning gathered through years of hands on experience and present it in the form of high impact seminars, workshops and presentations.

Embroidery Service Centre

Our Embroidery Service Centre makes embroidering a design much easier, increasing productivity at the same time as enhancing the design itself. Email the design and any problematic issues to us and our technicians will email the improved design right back.

To drive your hidden costs down, talk to Coats. From thread audits in pre-production to the latest technical bulletins, we'll provide support that achieves measurable results.

For more information, talk to your Coats representative today or visit www.coats.com/coatsknit-eco-h

OTHER PRODUCTS IN THE COATSKNIT RANGE

To complement the CoatsKnit range, we also have a selection of specialist CoatsKnit yarns. Each of these have additional benefits specific to the end use.

Product Name	Description
CoatsKnit AWF	A textured filament knitting yarn made with moisture wicking properties
CoatsKnit Mono	A 100% polyester dyed round cross-sectional monofilament yarn
CoatsKnit Lucence	A drawn textured polyester knitting yarn with a special 'glow in the dark' effect
CoatsKnit Ultra	A 100% polyester yarn of trilobal cross sectional filament construction, offering high sheen
CoatsKnit ColTwist	A textured filament yarn that can be twisted with filaments of up to six shades
CoatsKnit Protect	A 100% polyester yarn treated with an innovative process to give the finished yarn anti-microbial / anti-fungal properties.

Specialist CoatsKnit products are typically available across a select range of ticket sizes and technical information will in some cases vary from the above table.
