

COATSKNIT PROTECT+™

Anti-microbial Textiles Reimagined

CoatsKnit Protect+ spun yarns are an inherent anti-microbial solution built into your product's DNA, inhibiting microbes' growth in or on fabrics while providing all-day freshness.

ANTI-MICROBIAL
SPUN YARNS

Touchscreen
Gloves

Consumer PPE

Non-FR
Undergarments

- Inherent anti-microbial solutions that boost protection against microbes
- No topical treatments
- Does not wear off, wash away or weaken over time
- Provides a sustainable option for anti-microbial needs
- Textiles created from CoatsKnit Protect+ require no wet processing after fabric formation to achieve anti-microbial properties
