COATS MULTICOLOUR

Coats Multicolour is a great way of creating statement detailing on your garments. Use it for decorative stitching or on seams to give an attractive, varied multicolour effect - especially on darker fabrics and washed-out denim. Coats offers Epic Multicolour, Gral Multicolour and Gramax Multicolour Range.

Main uses:

- Denim jeans
- Ladies wear
- Men's wear
- Various other applications where a special shade effect is required

Since conditions and applications vary considerably in the use of a product, the customer and/or user should assure herself or himself that the product meets end customer requirements and is suitable for the intended end use. The dye process used to create multicolour influences the length of each coloured segment and as a result, these may vary. Due to the dyeing process, it must also be noted that the general fastness levels are lower than standard product. Wash tests prior to bulk are recommended to ensure product suitability.
