

Coats® Gramax™ EcoVerde AWF

Coats Gramax EcoVerde AWF is a 100% recycled polyester continuous filament textured thread with a PFC-free anti-wick finish. It is a kinder choice for the environment, with the finish helping to prevent water from being taken up by the thread.

Coats anti-wick PFC-free threads are the very best thread choice for no-compromise, premium water-resistant outdoor wear. Gramax EcoVerde AWF textured filaments give the thread a soft feel and help provide comfort in next to skin seams.

WHY CHOOSE GRAMAX ECOVERDE AWF?

- Gramax EcoVerde AWF is a 100% recycled polyester continuous filament textured thread
- Gramax EcoVerde AWF provides good seam coverage and softness for neat, comfortable seams
- The PFC-free anti-wick finish inhibits the capillary effect, thereby ensuring that no water is taken up by the thread
- When the correct sewing tension is used, the transport of water through the needle hole is prevented
- Less energy intensive to produce in comparison to virgin materials, which results in lower carbon emissions during production
- Delivers a similar level of performance as the virgin range, whilst offering sustainability benefits
- Global Recycled Standard (GRS) certified
- Standard 100 by Oeko-Tex® Class I

MAIN USES:

- For comfort in all next-to-skin garments
- Prevent the capillary action of water transportation through the thread in the seam in water repellent garments

EXPERT REAL WORLD SUPPORT

The final cost of any thread also includes hidden costs, fuelled by the methods and tools applied to it. Our experts know exactly how to reduce those costs, save time and increase productivity.

Seamworks

Install our Seamworks software to accurately calculate costs prior to production, putting an end to the risk of over or under ordering materials, and incurring unnecessary extra costs. The Seamworks tool is provided with installation, training and ongoing support included.

One to One Visits

There's no need to come to us, our experts will travel to your site. In person, online or via the phone, our trained consultants deal with the kind of issues any busy factory may face, providing a solution for today and a blueprint for future efficiency.

Training and Presentations

From thread selection to stitch formation, the use of colour to solutions for common production issues, we take the learning gathered through years of hands on experience and present it in the form of high impact seminars, workshops and presentations.

Embroidery Service Centre

Our Embroidery Service Centre makes embroidering a design much easier, increasing productivity at the same time as enhancing the design itself. Email the design and any problematic issues to us and our technicians will email the improved design right back.

Innovation Hub

Collaborate directly with expert R&D technologists at our Innovation Hub to create pioneering and tailored solutions for products ranging from Performance Materials to Apparel and Footwear. Equipped with state-of-the-art technology, we quickly turn ideas into prototype designs ready for manufacturing.

OTHER PRODUCTS IN THE GRAMAX RANGE

To complement the Gramax range, we also have a selection of specialist Gramax threads. Each of these combines the superior properties of the Gramax product with additional benefits specific to the end use.

Product Name	Description
Gramax EcoVerde	100% recycled polyester continuous filament textured thread.
Gramax EcoVerde AS	100% recycled polyester continuous filament textured thread ideal for use in the loops of overlocking, serging and cover seaming to provide softness and comfort and deliver neat, well balanced seams.

Special use Gramax products are typically available across a select range of ticket sizes and technical information will in some cases vary from the above table.
