GLOW IN
THE DARK

Coats Lucence HD

Coats Lucence HD is a highly engineered embroidery thread with a special 'Glow in the dark' effect. It is ideal for designs and logos on footwear and accessories applications.

WHY CHOOSE LUCENCE HD?

- Attractive embroidery patterns and extra special glow-in-the-dark feature
- Excellent performance on more demanding, thicker and difficult materials
- High abrasion resistance for durability in wear and tear
- Certified to Öko-Tex Standard 100, class II
- Meets Coats restricted substance list

MAIN USES:

- Coats Lucence HD is suited for use on products such as sport shoes, backpacks, leather goods and accessories

PRODUCT RANGE

Art / Tkt	TEX	Ticket	Length	Strength cN	Elongation % Min - Max	Needle Size Metric
46H1100	30	100	1000m	1525	13 - 17	75 - 90

LUCENCE HD PRODUCT RANGE

Coats Lucence is available in natural white shade.

TECHNICAL RECOMMENDATIONS FOR EMBROIDERY APPLICATIONS:

- Recommended machine speeds are 650 to 750 SPM. These will depend upon the different materials being sewn
- Recommended needle is DBXK5 65/9
- Lucence HD is coarser than normal embroidery thread and may not be suitable for small very fine embroideries
- Sewing machine tension adjustments may be required to avoid looping

Coats Lucence HD

OTHER PRODUCTS IN THE LUCENCE RANGE

To complement the Lucence range, we also have a selection of specialist Lucence threads. Each of these have additional benefits specific to the end use.

Product Name	Description
Lucence	This playful thread charges in sunlight or artificial light then gives off a luminous glow in the dark.

Specialist Lucence products are typically available across a select range of ticket sizes and technical information will in some cases vary from the above table.

Since conditions and applications vary considerably in the use of a product, the customer and/or user should assure themselves that the product meets end customer requirements and is suitable for the intended end use. Coats accepts no liability for unsuitable or improper use or application of products. Information provided is based on current averages and should be taken only as indicative. Coats accepts no liability for the preciseness and correctness of the information provided. Product information sheets are updated for time to time, please be sure you are referring to the most recent publication. Coats supports customers with advice on individual applications on request; if you have any questions or concerns, please contact us. © Copyright reserved 2018

EXPERT REAL WORLD SUPPORT

The final cost of any thread also includes hidden costs, fuelled by the methods and tools applied to it. Our experts know exactly how to reduce those costs, save time and increase productivity.

Seamworks

Install our Seamworks software to accurately calculate costs prior to production, putting an end to the risk of over or under ordering materials, and incurring unnecessary extra costs. The Seamworks tool is provided with installation, training and ongoing support included.

One to One Visits

There's no need to come to us, our experts will travel to your site. In person, online or via the phone, our trained consultants deal with the kind of issues any busy factory may face, providing a solution for today and a blueprint for future efficiency.

Training and Presentations

From thread selection to stitch formation, the use of colour to solutions for common production issues, we take the learning gathered through years of hands on experience and present it in the form of high impact seminars, workshops and presentations.

Embroidery Service Centre

Our Embroidery Service Centre makes embroidering a design much easier, increasing productivity at the same time as enhancing the design itself. Email the design and any problematic issues to us and our technicians will email the improved design right back.

To drive your hidden costs down, talk to Coats. From thread audits in pre-production to the latest technological bulletins, we'll provide support that achieves measurable results.
