LUX6 – all functions

LUX8 – all functions

Main uses

Leather wear

Hand bags

Purses and wallets

Ladies wear

Men's wear

High-end knitwear

Jackets

Benefits

LUX Duo is a luxury zip with a double chain. Like LUX zips it is having individually polished teeth, smooth slider running and a wide range of finishes. A lot of different combinations can be created by choosing from a variety of teeth sizes, finishes and tape colours.

Technical characteristics

Opti LUX Duo zips combine a highly polished finish and individually stamped teeth with a supple cotton-feel tape made from a specially treated polyester yarn for a premium look and feel.

The complex manufacturing process used in Opti LUX zips ensures a zip with no edges and ultra-smooth running, to create a truly luxurious product.

LUX duo is having two chains. The internal one in the middle is fulfilling the functions of opening and closing the zip. Because of the two chains the zip is heavier than a standard one and might not be suitable for lightweight fabrics.

The Opti LUX Duo is available in an extensive range of options and galvanic shades.

Description

Opti LUX Duo is a luxury zip with a double chain. It is ideally suited to high end goods and features the same individually polished teeth and smooth slider running as the single chain Opti LUX zips. The additional chain of Opti LUX Duo adds an even more luxurious look and feel to final product.

LUX Duo

Variety

Many different combinations can be created by choosing from a variety of teeth sizes and a wide range of finishes. The double chain of Opti LUX Duo also gives you the opportunity to select complementary or contrasting colour tapes, for even greater creativity and personalisation!

Range

Teeth sizes- the functional zip chain could be in all sizes: 4, 6, 8 mm; the other one could be either the same (see below image 2,3,4,5) or different size (see below image 1).

Teeth finishes - Teeth of both chains are available in all finishes from our electroplating catalogue. They could be either the same (see below image 4,5) or different (see below image 1, 2, 3)

Tape colours - Tapes are available in all tape colours from our shade card. Tape shade combinations are also possible (see below image 4)

Recommendations

Before proceeding to bulk production, Coats Opti recommends that you run tests and production trials on all zip uses/applications in order to verify that the product meets the end user requirements as well as the demands of internal processing conditions.

Coats Opti supports customers with advice on individual applications when requested. If you have any questions or concerns, please contact us.
