Coats – Permess

Coats and Permess are getting together to provide a comprehensive co-branded range of interlinings to the garment industry. The sales, distribution and technical service capability which Coats has in markets across the world is an excellent combination with the interlinings manufacturing spread, expertise and technology of Permess. Together, Coats and Permess will be able to offer added value to the garment industry:

- Consistent quality across the globe
- Quick technical support and sampling
- Fast and reliable lead-times based on local stocks at Coats' location
- Competitive pricing

Product range

- A comprehensive range for every fashion and style.
- For the best shape and stability of the garment.

General Safety Information

We recommend to test each different outerwear fabric before starting production, in order to obtain optimal results. Please note the above conditions are to be used for guideline purposes only. Customer must adjust conditions to suit their own equipment and fabric type. Coats cannot be held liable for product failure due to inadequate fusing conditions based on above information.
