SUPER ABSORBENT
POLYMER

Coats® Ultrabloc™ SY

Ultrabloc SY is a spun super-absorbent polymer thread that is ideal for dry blocking in wire & cable products. It is proven in temperature cycling, heat ageing and freeze/thaw testing.

Ultrabloc SY is carefully manufactured on state-of-the-art spinning equipment to ensure a smooth and consistent surface. This method of manufacture also prevents micro or macrobending. Its uncoated finish helps to reduce shedding or dusting during cable manufacturing, which improves productivity.

WHY CHOOSE ULTRABLOC SY?

- Decreases cable prep time
- Eliminates the need for potentially hazardous solvents
- Less consumable materials are required
- Cleaner work environment
- Improved life span of equipment

MAIN USES:

- Low, medium or high voltage energy cables
- Fibre optic dry cable applications

WHAT SETS ULTRABLOC SY APART FROM COMPETITOR PRODUCTS?

In relation to other products on the market, Ultrabloc SY showcased:

faster swelling power

more swelling capacity

more strength

WHAT IT MEANS...

Ultrabloc SY absorbs water at a speed **2 – 3 times** faster than competitor products, providing optimum protection from the elements.

When compared to competitor products in the market, Ultrabloc SY was proven to be the best fibre in terms of:

Absorption Speed

Absorption Capacity

Tensile Strength

Best suited for low, medium or high voltage energy cables and fibre optic dry cable applications.

PACKAGING OPTIONS

EXPERT REAL WORLD SUPPORT

The final cost of any product also includes hidden costs, fuelled by the methods and tools applied to it. Our experts know exactly how to reduce those costs, save time and increase productivity.

One to One Visits

There's no need to come to us, our experts will travel to your site. In person, online or via the phone, our trained consultants deal with the kind of issues any busy factory may face, providing a solution for today and a blueprint for future efficiency.

Training and Presentations

From product selection to solutions for common production issues, we take the learning gathered through years of hands on experience and present it in the form of high impact seminars, workshops and presentations.

Innovation Hub

Collaborate directly with expert R&D technologists at our Innovation Hub to create pioneering and tailored solutions for products ranging from Performance Materials to Apparel and Footwear. Equipped with state-of-the-art technology, we quickly turn ideas into prototype designs ready for manufacturing.

To drive your hidden costs down, talk to Coats. From product audits in pre-production to the latest technological bulletins, we'll provide support that achieves measurable results.
