

# Coats Webflex COT

Coats Webflex COT is a cotton wrapped fibreglass corespun yarn that is used to create a stable “no shrinkage” zone or tabby woven piece at the end of each roll of tyre cord fabric. The rolls are then joined at the tabby prior to dipping and keeping fabric shrinkage to a minimum.

## Main Uses:

- Tabby yarn in tyre cord fabric manufacture

## Why choose Webflex COT?

- Smooth cotton cover offers good protection during weaving.
- Minimal fabric shrinkage during dipping.
- Meets Coats restricted substance list.

## Technical Services

Our team of experts deliver innovative solutions globally.

FIBREGLASS  
COTTON  
TABBY YARN

Product Information

Tex	Ne	Strength cN	Approx Elongation % Min
120	6.5 / 2	6290	3.5

**Further Product Details:**

Product Details	Tex 120
BIC	66578
Cone Colour	
Material	Fibreglass / Cotton
Core	Fibreglass
Cover	Cotton
Type	Corespun
Use	Tabby
Loom Speeds (ppm)	N/A
Cotton Fly	Low
Defects	Very Low
Air-Jet Loom Compatible	N/A
Air-Jet Loom Performance	N/A

Since conditions and applications vary considerably in the use of a product, the customer and/or user should assure herself or himself that the product meets end customer requirements and is suitable for the intended end use. Coats accepts no liability for unsuitable or improper use or application of products. Information provided above is based on current averages and should be taken only as indicative. Coats accepts no liability for the preciseness and correctness of the information provided. Product information sheets are updated from time to time, please be sure you are referring to the most recent publication. Coats supports customers with advice on individual applications on request; if you have any questions or concerns, please contact us.
