

Coats® Dual Duty™ EcoVerde Supercotton

Dual Duty EcoVerde Supercotton is a highly engineered hybrid sewing thread designed to deliver the benefits of corespun threads coupled with the suitability of use in making post-dyed garments. The polyester filament core of Dual Duty EcoVerde Supercotton offers excellent strength and durability, while the higher percentage of long staple cotton wrap ensures optimal dye uptake and “hides” the polyester filament to avoid speckling effect in the sewn seam. Dual Duty EcoVerde Supercotton is a good choice for post-dyed garments where the end colour of the garment is known to some extent before the dyeing process.

WHY CHOOSE DUAL DUTY ECOVERDE SUPERCOTTON?

- The high tenacity polyester core provides higher tenacity and elongation as well as lower shrinkage compared to 100% cotton threads leading to superior seam quality
- Special cotton wrap provides excellent dye uptake
- Unique corespun construction delivers enhanced sewing performance and abrasion resistance even compared to “premium” quality 100% cotton threads
- Specially formulated lubrication for low friction sewing
- STANDARD 100 by OEKO-TEX® CLASS I
- Less energy intensive to produce in comparison to virgin materials, which results in lower carbon emissions during production
- Delivers a similar level of performance as the virgin range, whilst offering sustainability benefits
- Global Recycled Standard (GRS) certified

MAIN USES:

- Garment dyed jeans and denim wear
- All 100% cotton post dyed garments

Coats Dual Duty EcoVerde Supercotton

PRODUCT RANGE

Article Ticket	Ticket	Tex	Length	Average Strength cN	Elongation % Min - Max	Recommended Needle Size Metric
ETD5050	50	60	5,000 M	2,842	18 - 24	100 - 120
ETD7050	50	60	2,500 M	2,842	18 - 24	100 - 120

Shade	Core Colour	Wrap Colour	Recommendation
Shade Y0000	Polyester core natural	Cotton wrap bleached	For light or very light (like white) garments
Shade 07CTT	Polyester core grey	Cotton wrap natural	For medium colour garments
Shade 13CTT	Polyester core dark grey	Cotton wrap natural	For medium to dark, and very dark colour garments

CHEMICAL PROPERTIES

Mineral acids:	Polyester: is resistant to most mineral acids Cotton: disintegrates in hot dilute and cold concentrated acids
Alkalis:	Polyester: essentially unaffected by weak alkalis, but less resistant to stronger alkalis, especially at higher temperatures Cotton: swells in caustic, no appreciable strength loss
Organic solvents:	Polyester: generally unaffected, but soluble in some phenolic compounds Cotton: degraded by some solvents
Bleaching:	Polyester: unaffected Cotton: bleached by hypochlorite and peroxides
Insects / microorganisms (mildew, rot):	Polyester: unaffected Cotton: degrades but can be treated with special finishes
Laundering / dry cleaning:	Unaffected
Moisture regain:	Polyester: 0.4%, Cotton: 8%

FASTNESS PROPERTIES

Washing Fastness at 60°C	ISO 105-C10C	Grade 4
Water Fastness	ISO 105-E01	Grade 4
Rub Fastness	ISO 105-X12	Grade 4*
Hypochlorite Fastness	ISO 105-N01	Grade 4
Dry Cleaning Fastness	ISO 105-D01	Grade 4
Perspiration Fastness	ISO 105-E04	Grade 4
Artificial Light Fastness	ISO 105-B02	Grade 4

* Note: some Vat dyed PCC heavy shades (colour group: 47, 55) will not be able to achieve rub fastness standard. Only Grade 3; also reactive dyed PCC will not meet bleach and possibly light fastness standards. This is currently the case in Europe and shade cards should include a note to that effect

EXPERT REAL WORLD SUPPORT

The final cost of any product also includes hidden costs, fuelled by the methods and tools applied to it. Our experts know exactly how to reduce those costs, save time and increase productivity.

Seamworks

Install our Seamworks software to accurately calculate costs prior to production, putting an end to the risk of over or under ordering materials, and incurring unnecessary extra costs. The Seamworks tool is provided with installation, training and ongoing support included.

One to One Visits

There's no need to come to us, our experts will travel to your site. In person, online or via the phone, our trained consultants deal with the kind of issues any busy factory may face, providing a solution for today and a blueprint for future efficiency.

Training and Presentations

From product selection to stitch formation, the use of colour to solutions for common production issues, we take the learning gathered through years of hands on experience and present it in the form of high impact seminars, workshops and presentations.

Embroidery Service Centre

Our Embroidery Service Centre makes embroidering a design much easier, increasing productivity at the same time as enhancing the design itself. Email the design and any problematic issues to us and our technicians will email the improved design right back.

Innovation Hub

Collaborate directly with expert R&D technologists at our Innovation Hub to create pioneering and tailored solutions for products ranging from Performance Materials to Apparel and Footwear. Equipped with state-of-the-art technology, we quickly turn ideas into prototype designs ready for manufacturing.

To drive your hidden costs down, talk to Coats. From product audits in pre-production to the latest technical bulletins, we'll provide support that achieves measurable results. For more information, talk to your Coats representative today or visit www.coats.com/dual-duty-ecoverde-supercotton

OTHER PRODUCTS IN THE DUAL DUTY RANGE

To complement the Dual Duty range, we also have a selection of specialist Dual Duty threads. Each of these have additional benefits specific to the end use.

Product Name	Description
Dual Duty EcoVerde Indigo	100% recycled - the eco-friendly response to natural indigo dyed sewing threads.
Dual Duty EcoVerde Supercotton	100% recycled corespun thread that has been especially developed for post dyed cotton garments.
Dual Duty EcoVerde AWF	100% recycled corespun thread with PFC free anti-wicking

Specialist Dual Duty products are typically available across a select range of ticket sizes and technical information will in some cases vary from the above table.
