

Coats® FlamePro High Visibility

In many fast paced industries where hazards such as trucks, trolleys and machinery pose a threat, it is essential that workers remain highly visible by wearing the right protective clothing.

Coats FlamePro High Visibility is an inherently flame resistant and high-visibility certified fabric that is one of the lightest fabrics of its kind. The innovative construction of FlamePro High Visibility allows for improved comfort and aesthetics while meeting EN ISO safety norms. It offers you the same superb protection without compromise on performance or comfort.

With industries demanding better quality high-visibility garments, we set to work on a more sustainable, easy to work with fabric. FlamePro High Visibility includes renewable fibres and needs no dyeing – which makes it more sustainable than any other comparable product on the market. Big visibility, smaller carbon footprint.

HIGH VISIBILITY
MULTI-HAZARD
PROTECTIVE FABRIC

WHY CHOOSE FLAMEPRO HIGH VISIBILITY?

- Exceptional flame protection along with contact and radiant heat resistance
- Ensures better visibility in low light and risky work environments
- One of the lightest fabrics of its kind
- Excellent light and colour fastness properties
- Superior resistance to wash and wear
- It includes renewable fibres and needs no dyeing which makes it more environmental friendly
- Superior performance and comfort
- Suitable for ISO 11612 and ISO 20471 high-visibility clothing

MAIN USES

- Petro chemical industry
- Oil and Gas Industries
- FR Workwear
- Utility and Subcontractor Wear
- Emergency Wear
- Police and Firefighter Uniforms
- Industrial Workwear

EXPERT REAL WORLD SUPPORT

The final cost of any product also includes hidden costs, fuelled by the methods and tools applied to it. Our experts know exactly how to reduce those costs, save time and increase productivity.

One to One Visits

There's no need to come to us, our experts will travel to your site. In person, online or via the phone, our trained consultants deal with the kind of issues any busy factory may face, providing a solution for today and a blueprint for future efficiency.

Training and Presentations

From product selection to solutions for common production issues, we take the learning gathered through years of hands on experience and present it in the form of high impact seminars, workshops and presentations.

Innovation Hub

Collaborate directly with expert R&D technologists at our Innovation Hub to create pioneering and tailored solutions for products ranging from Performance Materials to Apparel and Footwear. Equipped with state-of-the-art technology, we quickly turn ideas into prototype designs ready for manufacturing.

To drive your hidden costs down, talk to Coats. From product audits in pre-production to the latest technical bulletins, we'll provide support that achieves measurable results.

For more information, talk to your Coats representative today or visit www.coats.com/flamepro-high-visibility

OTHER PRODUCTS IN THE FLAMEPRO RANGE

To complement the FlamePro range, we also have a selection of finishes for FlamePro threads. Each of these combines the superior properties of the FlamePro product with additional benefits specific to the end use.

Product Name	Description
FlamePro Splash	A molten metal splash protective fabric that is specially engineered to be lightweight, soft and flexible
FlamePro FLX	A range of innovative yarns and fabrics for personal protective equipment, specifically engineered to be soft, flexible and comfortable
FlamePro Protect+	A range of flame resistant, electric arc and molten metal splash resistant yarns with an inherent anti-microbial solution built into product DNA

Special use FlamePro products are typically available across a select range of ticket sizes and technical information will in some cases vary from the above table.
