

CoatsKnit™ Eco S

CoatsKnit Eco S is created using the renewable botanic protein fibre of the soybean plant. It gives fabric a smooth, drapeable quality that's as comfortable as cashmere. And because it's a by-product of soybean production that would otherwise be discarded, the fibre is highly sustainable too.

Why choose CoatsKnit™ Eco S?

- Soybean protein fibre blend is made using a natural / organic fibre combined with Lyocell
- The soybean protein fibre is soft and drape-able / feels like cashmere
- Processed from the by product of soybean manufacturing
- Sustainable and biodegradable, it contributes to a reduced environmental footprint
- Good colour fastness- provides lustrous colour which is stable in sunshine and when perspiration is present
- Offers a stronger tensile strength than wool

Main Uses:

- Footwear Knitted Uppers
- Apparel Garments
- Accessory Fabrics

Product Range

Art/tkt	Plies	Dtex / Ne	Strength cN	E%	TPM
OY00012	fibre blend	Ne 30/1	> 300	2 to 10	770 to 810
OY00017	fibre blend	Ne 20/1	> 600	7 to 11	621 to 759

Expert Real World Support

The final cost of any thread also includes hidden costs, fuelled by the methods and tools applied to it. Our experts know exactly how to reduce those costs, save time and increase productivity.

Seamworks

Install our Seamworks software to accurately calculate costs prior to production, putting an end to the risk of over or under ordering materials, and incurring unnecessary extra costs. The Seamworks tool is provided with installation, training and ongoing support included.

One to One Visits

There's no need to come to us, our experts will travel to your site. In person, online or via the phone, our trained consultants deal with the kind of issues any busy factory may face, providing a solution for today and a blueprint for future efficiency.

Training and Presentations

From thread selection to stitch formation, the use of colour to solutions for common production issues, we take the learning gathered through years of hands on experience and present it in the form of high impact seminars, workshops and presentations.

Embroidery Service Centre

Our Embroidery Service Centre makes embroidering a design much easier, increasing productivity at the same time as enhancing the design itself. Email the design and any problematic issues to us and our technicians will email the improved design right back.

Innovation Hub

Collaborate directly with expert R&D technologists at our Innovation Hub to create pioneering and tailored solutions for products ranging from Performance Materials to Apparel and Footwear. Equipped with state-of-the-art technology, we quickly turn ideas into prototype designs ready for manufacturing.

To drive your hidden costs down, talk to Coats. From thread audits in pre-production to the latest technical bulletins, we'll provide support that achieves measurable results.
